DRINK A GLASS OF REAL HOT-WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides, with results that are of untold blessing to humanity. The latest application of its unifying research is the recommendation that it is necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

The use of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Every one, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins, thus cleansing, sweetening and purifying the entire system before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast.

While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make any one a pronounced crank on the subject of internal sanitation.—Adv.

BODY OF BANDIT RODRIGUEZ PLACED ON VIEW AS WARNING TO SLAYERS OF AMERICANS

Placard on Corpse States That All Guilty Will Share Same Fate as Villa Agent.

TEN OTHERS EXECUTED.

Valles and Cisneros, Active as Bandits, and Eight Followers Shot—Refugees Guarded.

EL PASO, Tex., Jan. 17.—The corpse of Gen. Jose Rodriguez, Villa's cavalry leader, alleged to be one of the leaders in the Chihuahua massacre, was placed on public exhibition to-day in the yard of the Juarez customs house.

The gruesome show was intended to prove that the Carranza Government was determined to punish the murderers of Americans and foreigners.

A placard on the executed bandit leader's body announced that all enemies of the de facto government would meet a like fate.

The death order was also carried out when Gen. Manuel Back Valles and Enrique Cisneros, with eight followers, were shot by a Carranza force at Casas Grandes, it was announced to-day.

Valles was known as Villa's official executioner, successor of the late Gen. Rodolfo L. Fierro, "the butcher." General Valles and Almeida, of the Villa army, were executed by the same firing squad that ended Rodriguez's life at Madra Thursday.

While soldiers of the de facto Government were rounding up the bandits, an exodus of Americans from Northern Mexico was in progress to-day. Three trains are reported en route to the border with refugees.

All were under heavy guard of Carranza soldiers. A report that a train from Parral, in Southern Chihuahua, had been captured by bandits proved baseless. This train was held up for the arrival of refugees from neighboring districts.

H. C. Myles, British diplomatic agent here, was ordered by Ambassador Spring-Rice, to order all British subjects out of Northern Mexico immediately.

The bitterness engendered here by the massacre of eighteen Americans at Santa Ysabel last Monday has not visibly abated. Thousands attended the funerals yesterday of C. R. Watson and R. P. McElhatten, two of the victims. Watson's young son was saluted by a group of United States soldiers who attended the funeral. The soldiers recognized the boy dressed in the uniform of a military school. Young Watson returned his salute.

CARRANZA OFFICIALS ASSURED AMERICANS THEY WOULD BE SAFE.

WASHINGTON, Jan. 17.—Evidence collected at El Paso by State Department agent indicates that Carranza authorities at Chihuahua assured C. R. Watson, head of the party of Americans killed near Santa Ysabel, that no escort was necessary. In that opinion, however, many of the Americans agreed, although they had suggested to the authorities the advisability of sending troops with the party.

The advice further stated that the Carranza Governor of Chihuahua gave Watson a personal passport and that

the Carranza immigration authorities in Juarez gave a general passport for the whole Watson party. These developments are taken to point to responsibility of the Carranza Government for not adequately protecting the Americans.

The State Department gave out this summary of its official advice from El Paso:

"Holmes, the only survivor of the massacre, has no knowledge as to whether Watson and his companions requested a military escort or guard for their trip from Chihuahua to Cuernavaca. He states that if they did so, the authorities declined to furnish an escort or guard.

"It is reported by a person connected with one of the companies operating in Chihuahua that on the day that the Americans who were killed started for the works, he had a conversation with Watson and asked him if a Mexican escort was to accompany them, as he had talked with the authorities and they told him it was not necessary.

"Knowing that the Cusi mines were situated at Cusi, and that the purpose of the return of Watson and companions to Mexico was to resume the operations of these mines, the immigration authorities in Juarez, upon application of the El Paso agent of the Cusi Company, gave a general passport to the Watson party. The Governor of Chihuahua also gave a personal passport to Watson.

"Watson went to Chihuahua and was there on Jan. 4 to ascertain if it would be safe to resume operations. While there he got the de facto authorities to send a garrison and maintain it at Cusi. On that day three trains of troops, of twenty cars each, supposed to carry a total force of one thousand men, in charge of Gen. Jose Carranza, left for Cusi at 3 A. M. and 1:30 and 4 P. M. respectively.

"After being satisfied that a garrison was going to the camp and after the second military train had left Chihuahua, Watson left for El Paso at 4 P. M.

"Having passports issued by authorities, and a garrison having been established, which they (the Watson party) understood to number 1,000 men, they had ample assurance that it would be safe to resume operations at Cusi."

Concentration of Americans at Torreón, Monterrey and other points, where Carranza troops can afford them greater protection, was reported to the State Department to-day by Consul General Hanna at Monterrey. He said sixty Americans and others, employed at the Penoles Mining Company, near Mapimi, north of Torreón, had arrived safely at Monterrey. With them were a few from Anasco. Americans who have been on the property of the Tlahualilo Plantation, in the Laguna district, are at Torreón and Lerdo, a suburb.

He was only twenty-two years old.

PLAN SPECIAL TESTS FOR U. S. SUBMARINES

WASHINGTON, Jan. 17.—Batteries, engines and other vital parts of submarines hereafter will be more thoroughly tested in laboratories and extensive experiments will be conducted before they are placed in the submarines. The new policy, announced to-day by Secretary Daniels, is expected, will prevent so far as is humanly possible, such an accident as befell the E-2 in the New York Navy Yard Saturday.

The battery of the E-2, Mr. Daniels said, was placed aboard the vessel as an experiment, there being at the time no other way in which it could be properly tested. The vessel was prepared especially for this purpose. I have asked Congress for an appropriation of \$1,000,000 for the erection of a laboratory where batteries, engines and other vital parts of submarines will be tested and experiments conducted to assure their safety. This ought to be done before they are installed on the boats, and what resources the navy now has will be used for this purpose."

W. W. CHAPIN BUYS NEWARK NEWSPAPERS

Ex-Senator Smith's Eagle and Star Sold at Auction for \$235,000.

The Newark Evening Star and the Newark Morning Eagle newspaper properties owned by Senator James Smith Jr., who recently went into bankruptcy owing \$2,000,000 were sold at public auction to-day to William Wallace Chapin, a publisher and editor of national reputation, for \$235,000. Mr. Chapin said that he was alone in the purchase of the papers and intends to conduct them himself.

Andrew M. Lawrence, formerly manager of William R. Hearst's Chicago newspaper, and who is said to be again in Hearst's employ, played a prominent part in the sale. At one stage the two properties were knocked down to him as the highest bidder, but he was unable at the moment to put up 10 per cent. of the bid or to convince counsel for the Fidelity Trust Company, Senator Smith's assignee, that he could make good the sum demanded. The sale was reopened and Mr. Chapin secured the properties.

Mr. Chapin made a fortune out of the Seattle Post-Intelligencer. He sold that paper and for a time conducted the San Francisco Call. With James Keeley he started the Chicago Herald 10 years ago, but sold out his interest.

GERMANS MAKE PLANS FOR BARALONG REVENGE

Government Will Find Way of Getting Satisfaction, Says Under Secretary Zimmerman.

BERLIN (via wireless to Sayville, L. I., Jan. 17).—The German Government will most certainly find a way of getting satisfaction for this shocking deed," said Under Foreign Secretary Zimmerman to-day, commenting on Germany's announcement of reprisals in the Harburg case.

Zimmerman said that all German papers in the Reichstag condemn the British reply to the German note regarding the alleged murder of the German submarine crew, one Captain Lejeune, he said, compared the English reply to the old practice of crying "Stop thief!" The Socialist, Noack, Zimmerman declared, at first believed the German reply should have been stronger, but later said he favored the policy of dignified defiance.
